

Hiking trails and sights in the area

*If you are interested in more hikes, we recommend the book, *Vandringsturer i Norra Dalarna*. It is available for purchase at Intersport. There are many of us who enjoy spending time at Idre Fjäll and sections of the biking and walking trails are shared. Please take others who are participating in other activities into consideration. Respect and follow information signs.*

Nipfjället 4 km

Reckon with roughly 2-2,5 hours easy pace, not hilly. (Car journey roughly 20 minutes, 10km from Idre Fjäll) The starting point is Nipfjället's summer car park. From the car park follow the trail south towards Städjan. After about 2km you reach large heaps of stones that were formed by the inland ice. This is a suitable place for a picnic. Children love to play among the stones. You can take the route across the heath back to the car park if you so wish.

Lillnipen 1,5 km

Reckon with an easy 1-hour walk to the summit. The starting point is Nipfjället's summer car park. (Car journey roughly 20 minutes, 10km from Idre Fjäll). From the car park follow the trail due north up on Lillnipen. The trail slopes the whole way so you will probably get quite warm. A good after-dinner walk and a good way to end the day. You will find the Troll road at Nipfjället. Stop by the Troll road sign and follow the instructions. An exciting phenomenon that can only be found at a few places.

Städjan 6 km

Reckon with a 4-5-hour climb in hilly terrain. The starting point is Städjan's car park. (Car journey roughly 15 minutes, 8km from Idre Fjäll). From the car park choose the cross-marked trail towards the summit. After roughly 800 metres the trail divides. The winter trail is marked with a cross so go straight up the summer trail to the right. You can also take the winter trail up and the summer trail down. This is where it starts rising. Don't forget to turn around at times to enjoy the view. The summit at 1,131 metres above sea level has a 360-degree view stretching for miles around. The route can also be walked the whole way from Idre Fjäll. Start at the stadium and it is signposted at the crossing to Gränjesåsvallen.

Burusjön

A mountain lake situated south of Nipfjället. It has shallow waters, sandy beaches as well as several barbeque places. Boats and canoes can be booked and rented at Intersport, a fishing license can also be purchased there.

Klingforsen/Sognstugpet

Follow the road towards Foskros for about 10 km. On your left you will find a nice resting spot next to beautiful rivers. An excellent little bathing spot on warm days. If you continue your drive 5 km further, you will reach Sognstugpet. These rivers border to waterfalls at certain places and can be found your right.

Njupeskar 5 km

Reckon with 2,5-3 hours at an easy pace. Easily navigated on gravelled trails and planks. The starting point is the entrance to Nipfjället. (Car journey roughly 1 hour, 65km from Idre Fjäll) Well-signposted trail that begins at Fulufjället Naturrum information centre. Open daily. It could be a good idea to visit Naturrum first to find out all about the flora and fauna before setting off. There are information boards and resting places along the way.

Grövelsjön

There are large open spaces as the road ends close to the Norwegian border. Lovely opportunities to hike, maybe climb Dalarna's highest mountain - Storvätteshogna 1 204 meters above sea level belongs to Långfjället's nature reserve. Silverfallet (The silver waterfall) is a nice sight a 3 km hike from Sjöstugan (The lake cottage).

Valdalsbygget 4 km

Reckon with a 3-3½-hour walk at an easy pace. The starting point is the road from Grövelsjön leading to Norway. Just before the border there is a large car park on the left. (Car journey roughly 1 hour, 55 km from Idre Fjäll). Easy going in ancient mountain woodland. The mountain farm dates back to the 19th century and has been used as an all-year-round dwelling and a mountain pasture farm. The farm has a hikers cabin with a fireplace. If you fancy an extra stroll on the way back, we recommend a walk up Dyllen. The view stretches for miles over the Norwegian and Swedish mountains.

Silverfallet 6 km

Reckon with a 4-5 hour walk at an easy pace. The starting point is Sjöstugan in Grövelsjön. (Car journey roughly 1 hour, 55km from Idre Fjäll) A cross-marked trail leads you up the mountain. The walk is moderately hilly. On the way up you pass by Olån's wind shelter, which has open fire possibilities. From here follow the stream upwards approximately 1km to the Silverfallet falls with a drop of roughly 3 metres. You can choose to take your return route up towards the Norwegian border from where a trail leads back to the car park over the bare mountain above the tree line. The trail is planked in parts over the mires.

Lilla Fjätfallet

Lilla Fjätfallet is a beautiful waterfall near the ski center Fjätervålen. There are fine picnic places near the waterfall. Go through Gränjesåsvallen towards Fjätervålen. After about 9.4 km, turn right at the sign Fjätfallet.
