

Welcome to our rafting tour on Österdalälven!

You have booked our exciting family tour! We head to Österdalälven, situated 15 km from Idre Fjäll. This tour offers small, nice rapids with focus on the youngest participants. After a stretch of water where we get to practice our paddling skills we'll reach the first rapid. This is a great first rapid to get a feel for what rafting is about! Between the rapids there's deeper water where the guides sometimes cause mischiefs, and if the temperature allows it there will be opportunities to jump in the water and go for a swim. Once off the water we'll get changed and we'll have time for a hot drink. The tour (including travel) takes about 3,5 hours.

Meeting point: Rafting center at Idre Fjäll (next to Timmerkojan. When arriving at Idre Fjäll take a left before the bridge and park next to the flying carpets).

Age limit: 7 years of age in the company of a guardian
