The difference in our skis

Beginner Ski Package

These are basic skis suitable for those trying skiing for the first time. You mostly ski on green and blue slopes. The skis you'll receive are soft and flexible, providing you with good conditions for learning to turn

Intermediate Ski Package

The intermediate package is for those who have skied before. You ski with control and can handle most slopes but prefer blue and red ones. The skis are slightly harder and, therefore, more stable at higher speeds.

Advanced Ski Package

This package is for experienced skiers who enjoy speed and challenges. You've skied a lot before and take on all slopes on the mountain. The ski is more torsionally stiff, which makes it more stable at higher speeds and for more demanding skiing.
